

Collaborators

Initials	Institution	Model	Expertise
BS	Univ. of Colorado Denver	Ferret	Visual/perceptual neuroscience, ephys
MD	UC Irvine	Guinea fowl	Musculoskeletal biomechanics, muscle-level units
DF	?	Mouse	Systems biology
AH	UCLA	Marmoset / NHP	Ephys, population-level vision
MH	UT Austin	Human	Vision & CPS, natural behavior, VR/AR, eye tracking
KB	Indiana Univ.	Human / NHP	Visual neuroscience, optometry
JY	UC Berkeley	Human / NHP	Computational neuroscience, eye tracking, ephys
GD	?	Human	Eye tracking, VR/AR, perceptual/motor control
GN	RAI Institute	Robotics	Control theory, legged locomotion
CH	FAMU-FSU	Robotics	Bipedal locomotion, optimal control
JH	Agility Robotics / OSU	Robotics	Legged robots, mechanical design
SH	Cornell Univ.	Robotics	Legged locomotion, morphology-control coupling
BD	?	Robotics	Control theory, fabrication

Table 1: External research collaborators spanning every model system and dimensional domain the DOME instrument serves. [?] marks institutions not yet confirmed.
